NOTICE.

For many years I have been engaged collecting all the really good and rare plants, whether old or new. To these have been annually added all novelties of merit as they appear. The collection at this time of fine Greenhouse and Hothouse plants is one of the richest in the United States.

The prices at which some of the new plants are offered, may appear high to persons unacquainted with the importation of these articles. For such I have to pay high prices in Europe, adding freight, risks, &c., to justify which when first offered, the price should be proportionate—though I make it at the lowest possible rates, and as stock increases the price is reduced. Older and standard varieties are offered at my usual very moderate rates.

The description of the new plants are those of the parties who sent them out.

When selections are left to me, the very finest varieties will be sent, and the most vigorous plants.

After over thirty years' experience in packing and forwarding plants to distant countries, I flatter myself I can pack both economically and safely for any distance.

No charge is made for boxes or packing.

Plants, Bulbs, &c., at the single rate, will be mailed free; but when ordered by the dozen or hundred, the single price or a sufficient amount must be remitted to cover postage. On their reception they should be potted and placed in a frame or green-house to recover the effects of the journey. To Florists and Nurserymen who wish new plants, the mail offers the greatest facility for obtaining such, as they know how to care for them on their arrival. Amateurs who have no means of caring for plants after a journey through the mail, as well as all persons requiring a considerable quantity of plants of a larger size, had better have their orders by express. If left to me I will forward in such a way as I deem best for the purchaser.

In all orders by express, good plants are added in proportion to the value of the order or distance. Persons getting up clubs will be liberally rewarded with choice plants in proportion to the amount remitted.

Orders intended for mailing should be accompanied with a remittance; not less than \$1.00 worth sent in each order.

I decline sending goods long distances C. O. D.

In making out orders, keep plants and seeds separate—it saves us much time at our busy season.

Write your name plainly; give post-office, county and State, whenever you write, no matter how frequently.

In all letters of inquiry, it is well to leave a blank space between each question for an answer; this facilitates a reply in the busy season, when my correspondence is very heavy.

Please use the order sheet, or in a list apart from the body of the letter. This much facilitates business and prevents errors. In making out orders please affix prices, that I may know the size of plants required.

Customers who fail to receive a catalogue in due time, will please inform us of the same, that a copy may be sent, as catalogues are frequently lost in the mails.

This catalogue annuls prices in all former issues.

JOHN SAUL.

NEW, RARE AND BEAUTIFUL PLANTS.

NEW ROSES.

	Each.		Each.
* EARL OF DUFFERIN, (H. P.) , the finest new rose of this class; flowers velvety crimson, shaded with maroon, large, very full and finely formed; a continuous bloomer of vigorous and bushy habit. Ready in April.....	1 00	* THE METEOR, (Hybrid Tea) , "this is a remarkably dark rich velvety crimson, without the least tint suggestive of purple. It is a constant and good bloomer, very vigorous and healthy in growth, with no tendency to mildew. No red rose ever before offered retains its color as does the Meteor, some blooms during the past winter having kept for one week without any visible change in color".....	50
* LADY HELEN STEWART, (H. P.) , bright crimson scarlet, petals smooth and of great substance, highly perfumed; a strong grower and continuous bloomer. Ready in April.....	1 00	* THE PURITAN, (Hybrid Tea) , recommended as the grandest white rose ever raised. It is equal in size to "Merville de Lyon," grows robust, and carries the foliage right up under the flower, and in perfume is delicious, smelling like a Magnolia. Its blooming qualities are wonderful; it blooms continuously out of doors; the buds in opening are slightly yellow, changing to pure white as they expand. The wood is very straight and stiff, and flowers are produced from every shoot, and are of great substance and very sweet,	50
* MISS ETHEL BROWNLOW, (Tea) , flowers bright salmon-pink, shaded with yellow at base of petals; large, of good form, opening well, growth robust; shows its flowers to great advantage, being held erect on a sturdy upright stem. Ready in April. 3 inch pots, 50 cents; 5 inch pots.....	1 00		
* PRINCESS BEATRICE, (Tea) , flowers pale yellow with golden yellow centre, large and full, growth vigorous; a very valuable new rose. 3 inch pots, 30 cts; 5 inch.....	50		

NEW REGAL PELARGONIUMS.

The Pelargoniums now offered are not only the greatest novelties, but the most beautiful of the English and Continental collections.

NEW REGAL PELARGONIUMS.

This name is applied to that magnificent group of Pelargoniums the flowers of which are of large size, very rich and showy; a few are double, and although the others are not really double, yet from their fulness of form and the extra number of petals, they have the appearance of being so.

Pelargonium, Beauty of Oxtou , the upper petals are of a very rich maroon, darkly blotched; under petals very dark crimson, shaded with maroon; light centre; all the petals margined with white and beautifully fringed.....	50	Pelargonium, Empress of India , white pencilled with violet-rose, petals beautifully undulated and frilled; very beautiful.....	40
Duchess of Bedford , one of the most useful. Its blossoms are of the purest white, prettily fringed, with a feathered spot of delicate rose in the upper petals. Its habit is dwarf and compact.....	40	Guelphs et Gibelens , lavender shaded lilac flowers, much fringed, and spotted with deepest purple; a lovely variety.....	40
Dr. Masters , a splendid variety. The trusses are large and in great profusion; it is semi-double, the upper petals having large black blotches in the centre, with a narrow margin of rich crimson, the lower petals having a smaller blotch.....	40	Mad. Boucharlat , a variety with truly semi-double white flowers; a chaste and handsome flower.....	40

NEW PLANTS.

*PHILODENDRON ANDREANUM.

A striking Aroid, discovered by M. André, of Paris in New Granada; it is by far the finest species of Philodendron for decorative purposes ever brought under cultivation. Its stately foliage when fully developed may be compared, for size and effectiveness, with that of *Anthurium Veitchii* and *A. Warocqueanum*.

The cordiform-lanceolate leaves are deflected vertically from a robust erect foot-stalk, and attain a length of four to five feet. When first expanded on the young plant, they are of a decided scarlet tinge shaded with brown, when a little older they become a bronzy red-brown before finally changing to the normal bright velvety green of the mature leaves. Through all these changes, the colors are relieved and enhanced by the white midrib and nerves that branch from it. Ready in April. \$2.50 each.

*SCHUBERTIA GRANDIFLORA.

A new plant of great merit, destined to take a prominent position as one of the best novelties introduced for many years. It flowers profusely in clusters, shape of the Allamanda, pure white, deliciously scented, and lasting a long time in water; flowers large and of good substance. For cut blooms and decorative purposes it is unique; the culture most simple in the ordinary greenhouse. Ready in April. \$2.50 each.

APHELANDRA MARGARITÆ.

A beautiful Acanthaceous plant of dwarf habit, leaves lanceolate-acute, dark green with a stripe of white along the course of the veins, dark rosy purple beneath, flower spikes short; flowers brilliant orange-vermilion. Ready in April. \$1.50 each.

***APHELANDRA CHRYSOPS.**

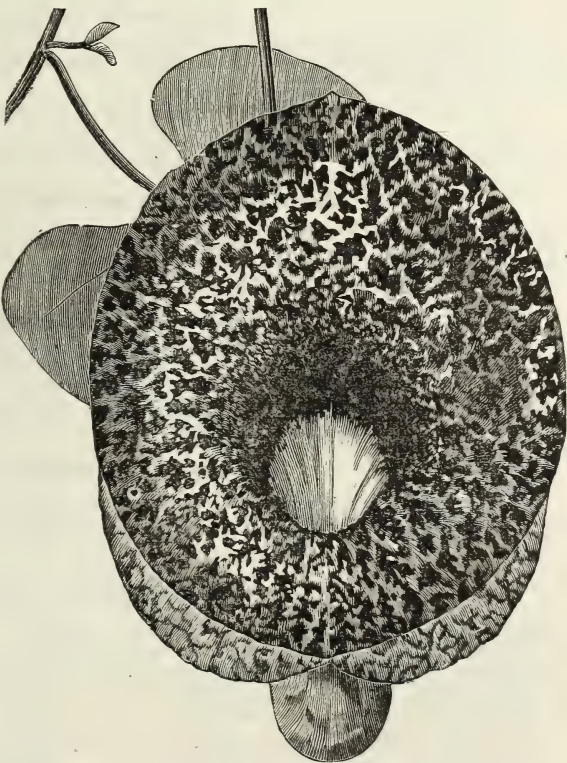

One of the most handsome species yet introduced, producing a grand golden inflorescence a foot in length, composed of four rows of compound ovate pointed bracts, proceeding from which are its flowers, which are of the same bright yellow color. To add to its beauty, this plant has also striking variegated leaves, thus combining two attractive qualities, and rendering it one of the most desirable of ornamental plants. The leaves are of a motley green, the variegation consisting of the principal veins being of a creamy white color. Ready in April. \$2.50 each.

***BEGONIA "GLOIRE DE SCEAUX."**

A most useful acquisition raised by Messrs. Thibaut & Keteleer, of Sceaux, near Paris, from *B. Socotrana* and *B. Subpelata*; it is one of the best winter-flowering Begonias yet obtained. The plant is exceedingly floriferous and very vigorous, forming a compact and regular pyramid from 18 to 24 inches high. The stem is robust and much branched; the leaves broadly and obliquely cordate, deep green with a rich metallic lustre. The flowers are of a bright pale rose color. 50 cts. each.

***ARISTOLOCHIA ELEGANS.**

A beautiful free-flowering species of neat growth, imported from Brazil. The handsome and elegant flowers are borne on long stalks and have a slightly distended tube, which is suddenly bent upwards into a cordate cup-shaped limb of a rich dark purple, ornamented throughout with irregular branched markings of a creamy-white, and having a golden-yellow eye surrounded by rich velvety-purple. Its blossoms are produced in the richest profusion, even on small plants, and are entirely free from the objectionable odor peculiar to the genus. 50 cents.

ARISTOLOCHIA ELEGANS.

IMPATIENS HAWKERII.

A more lovely flowering plant than this new species it would be difficult to imagine. The magnificent flowers are very large, flatly expanded, and of the most brilliant rich deep carmine color. This is relieved by a lustrous bluish tinge round the small white eye. The handsome flowers of this superb new Impatiens are produced in the greatest profusion from March until October. "A marvellously fine new Balsam, somewhat in the way of the popular Sultana, but greatly superior, both in the size of its flowers and their color."—*The Garden*. 40 cents.

***AMASONIA PUNICEA.**

"This is unquestionably one of the most beautiful plants that have been brought under the notice of Horticulturists for many years. The inflorescence is very brilliant, being particularly striking from having a series of the richest vermilion-crimson Poinsettia-like bracts, the lowermost of which are four inches long, are very persistent, remaining in perfection two months. From the base of each bract are produced pendulous flowers, in twos and threes of a creamy-white color, offering a striking contrast to the rich coloring of the other parts of the inflorescence." \$1.50.

***BEGONIA DECORA.**

A shrubby variety with dark green obliquely lanceolate leaves, profusely marked with oblong spots or dots of a silvery-gray color; somewhat of the character of *Argyrostigma*, but with the spots more minute. 40 cts. each.

SEMPERFLORENS GIGANTEA CARMINEA.

"Should be grown by every florist, in quantity, as it is one of the very finest of winter flowering sorts." 25 cts. each.

LOBELIA CAVANILLESII.

A very showy species. One of the principal merits of this Lobelia is the beautiful and in this tribe unknown coloring of the flowers, the tube being brilliant scarlet with orange-yellow lips. Being most free-blooming and easily cultivated, it is equally desirable when grown as a pot plant or planted out. 30 cts. each.

BOUVARDIA PRESIDENT CLEVELAND.

This far surpasses in richness all others of the genus, the color being rich velvety scarlet. Few scarlet Geraniums are brighter than this. 50 cts each.

***PLUMBAGO CAPENSIS ALBA.**

A pure white variety of the beautiful *P. Capensis*, equally free in growth and profusion of flower. \$1.00 each.

***OCTROWSKIA MAGNIFICA.**

"A tuberous-rooted *Campanula*, grows five feet high, and bears flowers the size of a teacup. The best new hardy plant of this and for many years to come." Ready in April. \$1.00 each.

AGERATUM "LITTLE DORRIT" NEW WHITE.

Charming dwarf, bushy variety, with white flowers; an exact counterpart to the well-known beautiful blue sort; particularly useful for cutting.

***ABUTILON VITIFOLIUM.**

A very distinct species from what are usually grown; it forms quite a large shrub, with large downy foliage, flowers freely, lilac veined, much harder than the other class of Abutilons, and may prove quite so South. A very desirable plant. \$1.00 each.

***REINWARDTIA TETRAGYNE.**

A very beautiful greenhouse plant, with golden-yellow flowers, which are produced freely during winter. It is similar to that good plant *Linum Trigynum*. Ready in April. \$1.50 each.

***ERANTHEMUM MACROPHYLLUM.**

A very desirable winter-flowering stove plant. Its pretty light blue flowers are borne in terminal and axillary spikes. The lower petal or lip extends horizontally and is of a deep bright blue, forming a pleasing contrast to the celestial blue of the upper petals. Blooming as it does in the winter, when flowers are so scarce, this will be found a welcome addition to our stoves. It is very free flowering and of good habit. 50 cents.

***ALOCASIA SANDERIANA.**

A remarkably handsome and truly grand *Arad*, and one of the finest stove plants. It has erect petioles, which are brownish-green and striately mottled; on the young leaves the color is bright glossy green, and on the older leaves the surface has a metallic blue reflection. The leaf-blade is arrow-shaped, the front portion with about three triangular lobes on each side, the basal portion with one or two smaller lobes; the thick costa and the stout cross veins are white, conspicuously bordered with ivory-white, the margins also being white. This is certainly the most beautiful of all the *Alocasias*, and a most magnificent foliage plant. \$2.50 to \$5.00.

***IPOMŒA THOMSONIANA.**

A beautiful new species, in habit much resembling the well-known *I. Horsfallæ*. The flowers, however, which are borne in clusters, are pure white and much larger, being about three inches in diameter at the mouth. It has thick fleshy leaves, and from its free-blooming character cannot fail to become one of the most popular and useful of stove-house climbers. Flowers profusely during winter. \$1.00.

***NEW PASSIFLORAS.**

	Each.		Each.
* <i>Passiflora, Acerifolia</i> , maple leaved a new and beautiful <i>Passiflora</i>	1 00	* <i>Passiflora, Hahnii</i> , this is a very distinct and beautiful variety of Passion-flower. It is a native of Mexico and is a free growing, temperate stove-climber. The flowers are about three inches across, of a creamy white, with a yellowish corona, and are produced in great profusion.....	1 00
<i>Constance Elliott</i> , pure ivory-white flowers, without a trace of the bluish tinge peculiar to the type; inner surface of the sepals and petals is white; the coronal threads being ivory-white, tinged with yellow, hardy.....	25	* <i>Tacsonia Jamesonii</i> , flowers of a rich rose, a distinct and very beautiful Passion-flower...	75
* <i>Prof. Eichler</i> , a hybrid between <i>Loudonii</i> and <i>Prinsepis</i> , bright scarlet.....	50	* <i>Parritæ</i> , flowers rich orange, sepals rosy orange; very distinct.....	75

***SPIRÆA ASTILBOIDES.**

One of the most handsome of hardy herbaceous perennials, which has been certificated both by the Royal Horticultural and Royal Botanic Societies on account of its great merit. The stems grow from two to three feet high, and are terminated by compound feathery branches of elegant white flowers. It is a charming plant on account of its free growth and beautiful flowers, which are produced in the greatest profusion. \$1.00.

***IBERIS SEMPERVIRENS PLENO.**

There can be nothing prettier than the double white Candytuft for edging, beds, borders, rockworks, &c., and it is of particular value to the Florist. The flowers form a close bouquet of the purest white, and cover the dwarf, compact and beautifully rounded bush. The plant is well adapted for pot-culture, but its beauty will be more perfectly developed if planted out in the garden. The flowers appear in great profusion from April until June. 50 cts.

*NEW ANTHURIUMS.

	Each.		Each.
* <i>Anthurium, Ferrierense</i> , a splendid hybrid obtained from <i>A. Ornatum</i> and <i>A. Andreanum</i> . The slender, erect foot-stalks of the leaves support a fine, bright-green, heart-shaped expansion, fully twelve inches long and six inches broad. The scape is stout and erect, attaining a length of twenty-four to thirty inches. The spathe, which is remarkably showy and attractive, is of cordate form five to six inches across, of a bright, rosy carmine, without any of the reticulated corrugations characteristic of <i>A. Andreanum</i> . The spadix is about five inches long, ivory-white to		two-thirds of its length, with the upper third fawn color.....	2 50
		* <i>Anthurium, Andreanum</i> , the flower-spathes, which are borne well above the foliage, are heart-shaped and of a most brilliant scarlet color, the surface irregularly corrugated and traversed by deep sinuous veins, the spadixes ivory-white at the base and greenish-yellow at the tip. It is an extremely attractive plant, and the individual flowers remain in perfection about three months, thus rendering it highly valuable for exhibition..	2 50

NEW DOUBLE BOUVARDIAS.

<i>Bouvardia, Hogarth Florapleno</i> , of free growth, large double corymbs of flowers, very profuse flowering.....	50	<i>Bouvardia, Sang Lorraine</i> , a free-flowering variety, producing fine corymbs of large double flowers of a brilliant vermilion color.....	30
<i>Triomphe de Nancy</i> , a vigorous and floriferous variety, with large compact corymbs of well-formed double flowers of a beautiful orange-salmon color.....	30	<i>V. Lemoine</i> , the fine imbricated double flowers of this variety are of a fiery scarlet color, produced in large corymbs in the freest manner, the plant being extremely floriferous.....	30

NEW TUBEROUS ROOTED GRAPE VINE.

A recent introduction, consequently not fruited or tested; as it comes from a warm climate—Cochin China—we may infer it will require heat to succeed. Two varieties—round and oblong. 30 cents each.

NEW DIEFFENBACHIAS.

* <i>Dieffenbachia, Jenmanii</i> , the ground color of the leaves, a rich bright glossy green, is relieved by a milk-white band at every lateral nerve and by a few white spots interspersed between the bands. The striking variegation renders it one of the handsomest of Stove variegated plants. "One of the most striking		new foliage plants that has come under our notice."— <i>Gardener's Chronicle</i>	75
		* <i>Dieffenbachia, Magnifica</i> , a truly magnificent plant, vigorous, distinct, and fine habit; with large green leaves spotted and marked with pure white. One of the finest <i>Dieffenbachias</i> ,	50

*NEW YUCCAS.

* <i>Yucca, Filamentosa Aureo-Variegata</i> , this is one of the most ornamental of Yuccas with colored foliage yet introduced. It is distinguished from the normal form by the middle portion of the leaves being marked with bright yellow longitudinal bands. It will prove a		valuable addition to the list of foliage plants for the decoration of the conservatory and greenhouse.....	\$1 50 to 2 50
		* <i>Yucca, Pendula Variegata</i> , a very handsome variegated Yucca of free growth, quite hardy.....	\$1 50 to 2 50

MELON PEAR OR MELON SHRUB.—*Solanum Guatemalense*.

"A very delicious fruit from the Highlands of Guatemala, and now being cultivated in California. It will likely succeed in the South. The fruit is of the size of a hen or goose egg, or even larger, and very much of the same shape. The color is lemon or pale orange with streaks or waves of bright violet, the whole making a fruit unrivaled in beauty. The interior of the fruit is a solid pulp similar to that of a pear, also of a pale yellow color, and of a taste resembling that of a fine musk-melon, but which has besides a most charming acid, so wholesome and so delicious that when the fruit is partaken of on a very warm day, it allays the thirst for several hours. The plant is an enormous yielder. 25 cts.

*MEDINILLA CURTISII.

A beautiful Stove plant of bushy habit. The flowers are produced in great numbers in terminal and lateral panicked cymes on flower stalks of a beautiful coral red. Each flower is about half an inch in diameter, and has an ivory white calyx and a creamy white corolla, which show to great advantage the central tuft of purple stamens.

The neat and compact habit of the plant, the profusion with which its chaste flowers are produced, and which continue in perfection for many weeks in the autumn, render this one of the most valuable plants of recent introduction. \$1.00.

AGLAONEMA PICTUM.

This is a brilliant Aroid, with a fine rounded stem. The leaves vary in form, sometimes elliptical, oblong-lanceolate, are rounded at the base and almost suddenly acuminate at the top, from 4 to 7 inches long, and 2 to 3 3/4 in width; they are of a lovely deep velvety green, beautifully mottled with large spots and irregular markings of a whitish blue. The mid-rib is prominent and slightly channelled on the upper face. When it is in flower it is still more attractive. The spathe is remarkable for its curious pocket-like form and its knotty spadix. \$1.00.

CURCULIGO RECURVATA VARIEGATA.

A variegated variety of this exceedingly beautiful and graceful plant. \$1.00.

DRACÆNAS.

Each.	Each.
* <i>Dracæna Lindeni</i> , one of the most brilliant acquisitions recently made among fine foliaged plants. The stem is erect and simple, the leaves, which are deep green, are traversed by bands of creamy-white and yellow, handsomely variegated; a most distinct and striking variety. It is a plant which will gain a high reputation.....	\$2.50 to 5 00
* <i>Dracæna, Massangea</i> , centre of leaf pale yellow, green margin; a very superb and distinct variety. This superb plant, like <i>D. Lindeni</i> , will be extensively grown, as they are two of the most distinct and graceful of decorative plants.....	\$2.50 to 5 00

*SCHISMATOGLOTTIS LAVALLEEI.

"In announcing this lovely plant we are convinced that it will become popular among lovers of fine-foliaged plants. It may be distinguished at a glance from all other species in cultivation. The texture of the leaf is flexible, the mid-rib is slightly prominent on the upper surface, and of a beautiful bright green, on which are scattered numerous silvery white spots, producing a most pleasing effect." \$1.50.

NEW BEGONIAS.

<i>Begonia, Albo-Picta</i> , a neat and pretty species, introduced from Brazil, distinct in character from all the cultivated kinds, whether species or varieties. It is shrubby in habit and of compact growth; the leaves are glossy green, freely spotted with bright silvery white. It has small and elegant foliage, and will make a really useful and pretty plant for decorative purposes.....	30
* <i>Assamica</i> , a very distinct and beautiful new species.....	50
* <i>Arc-en-Ciel</i> , a lovely new variety of the Rex type; the marking is delicate and exceedingly beautiful.....	1 50
<i>Berthe de Chateauricher</i> , a very distinct and handsome variety: flowers large orange vermillion, free bloomer; one of the finest autumn and winter bloomers.....	30
<i>Diadema</i> , a species of incomparable beauty, and, moreover, a distinct type; leaves of a delicate green, and marked with white elongated blotches. The leaves are perfectly smooth and shiny; the ground is a clear green, whereon numerous white strains are scattered, without regularity, in bands.....	30
* <i>Mira</i> , a hybrid between <i>Diadema</i> and <i>Goseensis</i> ; finely spotted foliage; a distinct and beautiful hybrid; a superb plant.....	50
<i>Begonia, Goseensis</i> , a beautiful new Begonia; leaves large, round, bright green, veined with rosy carmine, the whole covered with velvety down which has a metallic lustre.....	50
* <i>Olbia</i> , a beautiful new species from Brazil.....	75
<i>Manicata Aurea Maculata</i> , this very beautiful Begonia has its fine foliage blotched and spotted with yellow, similar to the well known <i>Farfugium grande</i> , a grand foliage plant.....	75
<i>Semperflorens elegans</i> , a very vigorous growing plant, and superb winter bloomer: color deep bright rose.....	50
<i>Schmidtii</i> , flowers white during fall and winter.....	25
<i>Socotrana</i> , a species of remarkable interest, discovered in the island of Socotra. <i>B. Socotrana</i> is a plant of very neat habit, with erect stems 8 to 12 inches high, furnished with orbicular peltate leaves 4 to 7 inches in diameter, and producing a profusion of bright rose pink flowers, of which the males are fully two inches in diameter. Its great recommendation is its very free blooming character, and its flowering in the depth of winter.....	40
<i>Teutschni</i> , new and fine.....	25
* <i>Ville de Namur</i> , this beautiful foliaged Begonia is in style of <i>Louise Chretien</i> , but superior.....	75

CROSSANDRA UNDULÆFOLIA.

This is a dwarf, shrubby plant, rarely exceeding a foot high, with spreading ovate-lanceolate evergreen leaves. It flowers freely in the summer, and continues in bloom for several weeks. The flowers are produced successively along an erect spike 2 to 3 inches long, formed "into a four-sided kind of strobilus by numerous opposite acutely-keeled hairy bracts," in which the calyx of the flowers is concealed; the corolla is bright orange-yellow tinted with rose. 75 cents.

*CIENKOWSKIA KIRKII.

This handsome and interesting plant is a native of Eastern Tropical Africa; its blossoms are exceedingly attractive and beautiful; they are produced on a many-flowered scape, and are of a soft purplish rose color, with a bifid golden spot in the centre. It has received a First-Class Certificate from the Royal Horticultural Society. 50 cents.

SELAGINELLA GRANDIS.

A handsome erect-growing species, with large, broad, recurved, grass-green fronds, much branched, the divisions half an inch broad, densely clothed with distichous, imbricating, subfalcate. 75 cents.

COLOCASIA NEO-GUINENSIS.

A new aroid, it is remarkable for its tufted habit, the shortness of the leaf stalks, and its short-stalked inflorescence, and the beautiful green tone of its smooth and shiny leaves, spotted with creamy white. It will form an interesting addition to collections of Aroidaceous plants, and probably may prove valuable for the embellishment of the out-door garden in summer, like *C. Esculenta*, now so much cultivated. 50 cents.

HIBISCUS CHRYSANTHUS.

A very distinct new species from Natal: very large flowers, bright deep yellow, purple eye. This beautiful plant bedded out the past summer flowered finely with me. 50 cents.

PIPER METALLICA.

A very decorative plant, with round leaves, thick and of a beautiful sparkling metallic green, a native of Borneo. An exceedingly pretty plant. 50 cents.

PELLIONIA PULCHRA.

An exceedingly pretty trailing plant, with light green foliage marked with dark spots. A charming trailing plant. 30 cents.

IMPATIENS.

Each.	Each.
Impatiens, Sultana , a very beautiful plant from the East coast of Africa. The plant is a free grower and continuous bloomer, color of flowers a rich carmine magenta..... 20	Impatiens, Mariana , a pretty new species, of dwarf habit, reticulated foliage..... 25

JASMINUM GRACILLINUM.

Jasminum Gracillimum is one of the most distinct in its graceful habit and in the abundance of its large sweet-scented flowers, which are also more copiously produced. It appears to be a small species, with long, very slender branches springing from low down on the stem, and curving over on all sides, weighed down by terminal globose panicles. A flowering shoot is produced from every joint, which terminates in a dense cluster of pure white fragrant flowers. 30 cents.

BRUGMANSIA SANGUINEA.

An old but neglected plant; free luxuriant grower, with large, hairy foliage, flowers long, white, tubular edge margined crimson. 50 cents.

ANTHURIUMS.

*Anthurium, Crystallinum , the emerald green refulgent leaves are spotted all over with a brighter shade, and bordered by a broad silvery or rather crystal band, which surrounds the intramarginal and four secondary nerves. These dazzling white zones are so distinct and regular that they resemble a border of incrustated silver around the sections of the blade of the leaf.....\$1 00 to 2 00	Anthurium, Regale , this is a superb ornamental foliage plant. There are several varieties of this plant. The one now offered is the finest; the leaves are heart-shaped, much lengthened out towards the apex, and rich dark velvety-green in centre.....\$1 00 to 2 00
Floribundum , a very pretty species, of easy culture. Flowers pure white, freely produced.....50 cts. to 1 00	Scherzerianum , one of the most striking and beautiful dwarf-flowering stove plants of recent introduction, producing beautiful brilliant scarlet flowers, each of which remains from two to three months in bloom. This charming and novel plant is easy of culture, and a most abundant bloomer.....\$1 00 to 2 00
Magnificum , the foliage of this plant is truly magnificent, a noble species with large velvety-green leaves and broad silver veins.....50 cts. to 1 00	Tetragona\$1 00 to 2 00
Veitchii , a very handsome Aroid. The leaves are ovate-oblong, greatly elongated, attaining lengths of from 2 to 3 feet, with a breadth of less than one-third of these dimensions; with a glossy metallic surface when first expanded, becoming paler by age. The principal nerves are arched and deeply sunk, giving the surface a conspicuously waved appearance. As an exhibition or decorative plant it will always take a very high position.....\$1 50 to 2 50	Warocqueanum , a remarkable Aroid. The leaves are greatly elongated, attaining lengths of from 24 to 30 inches, with a breadth of not more than 7 or 8 inches. The ground color is a deep green of a very rich hue, with a velvety lustre and appearance, with which the light color of the midrib and veins form a pleasing contrast. To the lovers of fine foliage plants this beautiful <i>Anthurium</i> will be a most welcome acquisition.....\$1 00 to 2 50

ALOCASIAS.

*Alocasia, Hybrida , an exceedingly beautiful Hybrid, sent out by Messrs. Veitch & Sons. It is of free growth, with exceedingly beautiful foliage with metallic hue, in the way of <i>A. Veitchii</i> , but much finer; will make a grand specimen plant for exhibition, &c.....\$1 00 to 1 50	Alocasia, Sedeni , very beautiful, between <i>A. Metallica</i> and <i>A. Lowii</i> . The form of the leaf is perfectly intermediate between the two parents, whilst the coloring is a very striking and pleasing combination of the metallic hue of one parent, with the dark green and prominent white veins of the other. A fine foliage plant.....50 cts. to 1 00
Jenningsii , a delicate green, over which, between the principal veins, are laid heavy blotches of black, which are remarkably precise in outline and arrangement..... 25	*Thibautiana , a splendid foliage plant of stately and robust habit, and, without doubt, by far the finest of all Alocasias. For exhibition purposes it stands in the front rank among foliage plants, and in the Stove it forms one of the most distinguished ornaments. A first-class certificate was awarded to it by the Royal Horticultural Society.....\$1 00 to 1 50
Lowii , a very beautiful plant with large shining foliage. Forms a fine specimen.....50 cts. to 1 00	Veitchii , the foliage of this plant is exceedingly distinct. A grand show plant.....40 cts. to 1 00
*Macrorrhiza Variegata , leaves nearly as large as <i>Colocasia Esculentum</i> , broadly splashed with white, some leaves nearly all white. Its easy growth, combined with the rich variegation, makes it a very telling subject for exhibition.....50 cts. to 1 00	*Zebrina , fine yellow leaf-stalk, with distinct black marks, rendering it a very conspicuous plant. It makes a grand specimen.....50 cts. to 1 00
*Metallica , a plant possessed of great beauty. Large, thick, shell-like leaves of a bronzy copper color. It is distinct and admirable in every respect.....75 cts. to 1 50	

*GLOBBIA COCCINEA.

The stems are much crowded, 12 to 18 inches long, and gracefully arching on all sides, giving the plant a very elegant contour. They are furnished with deep green leaves and terminate in a dense raceme of flowers, of which the bracts are scarlet and the perianth yellow. The plant is continuously in bloom during the greater part of the year. The elegant habit of this plant, its richly-colored flowers of singular structure and their long duration, render it a most useful and interesting plant. 50 cents.

***HIGGINSLA RÆZLI.**

A very beautiful new tropical plant, with dark bronzy leaves, streaked and marbled with white. 50 cents.

POTHOS.

	Each.		Each.
Pothos, Celatocaulis , this plant is a handsome and interesting climber, lying perfectly flat upon the surface it climbs over, being held in position by its numerous adventitious roots; and as it is a rapid grower, it is admirably adapted for covering walls, &c.....	30	Pothos, Aurea , the leaves are strikingly variegated, irregularly marked by bands of fantastic-shaped blotches of creamy-yellow, here and there suffused with pale yellowish-green.....	30

PAVONIAS.

*Pavonia, Wioti , the outer calyx consists of two whorls of bright red bracteoles, the outer whorl shorter than the inner, which equals the closed corolla. Both the latter and the calyx are of a red-black. It flowers continuously throughout the year, but most freely in the winter months.....	50	*Pavonia, Makoyana , its corymbs of flowers are peculiarly attractive from the bracteoles being large and of a bright rosy-carmine color, forming a striking contrast with the dark purple corolla. The plant is extremely floriferous, and the blossoms remain a long time in perfection.....	50
---	----	---	----

MONTBRETIAS.

*Montbretia, Bouquet Parfait (new), yellow, blazed with vermilion.....	75	*Montbretia, Elegans (new), very bright yellow with vermilion.....	50
Crocsmiaeflora , an exceedingly beautiful bulbous plant, a hybrid between Montbretia Pottii and Crocosmia Aurea—flowers in long spikes like a Gladiolus; color brilliant orange and crimson. Per doz. \$1.50.....	15	Pottii , a bulbous rooted plant from the Cape, requires similar treatment to Gladiolus; stem 1½ to 2 feet high, with a panicle nine inches long, bearing long, deep bright yellow flowers, tinted outside with red. Per doz. \$1.00.....	15

ANTHERICUM PICTURATUM.

Without a doubt one of the handsomest foliage plants ever introduced, in growth equal to *A. Nitatum*, the variegation is entirely distinct, having a rich creamy white band 3¼ of an inch wide running through the centre of each leaf, margined on each side with rich deep green. 30 cents.

NEW DIEFFENBACHIAS.

Dieffenbachia, Baraquiniana , a fine vigorous plant with white stems, leaves green, spotted and blotched with pure white.....	50	Dieffenbachia, Bowmanii , very large bright green leaves, blotched and marked with golden green; a grand specimen plant.....	50
Bausei , it is a stocky-growing broad-leaved variety, with yellowish green leaves, which are irregularly edged and blotched with dark green, and also spotted with white, the marking being particularly effective.....	50	Nobilis , the leaves are of a deep rich green, marked over the central portion to within about an inch of the margin, with largish, angular, irregular and variously confluent white spots, which contrast with the color of the margins and intervening portions, 30 cts. to	50
Eburnea , distinct and very beautifully marked foliage.....	50	Picta , a very beautiful foliage plant, leaves a deep green, mottled with white; beautiful.....	50
Illustris , a stout-habited stove plant of noble character, with bold and finely-marked leaves. The blade is large, oblong-ovate, distinctly cordate at the base, marked all over with irregular blotches of yellowish green, and with a tendency to become yellow along the course of the principal ribs.....	50	Splendens , a plant of great beauty, remarkable for the lustre of its coloring. The stem is faintly mottled with dark and light green. The leaves have a thick ivory-white midrib, and the ground color is of a deep, rich, velvety bottle-green, with a resplendent, lustrous surface, freely marked with whitish striated blotches, which stand out in striking contrast with the dark green ground color.....	50
Leopoldii , a South American plant of resplendent beauty. The leaves are oblong-ovate, of a rich, deep, lustrous, satiny-green, traversed by a broad and stout ivory-white rib, which is bordered on each side through its entire length with a whitish band, and shows in strong contrast to the color of the leaf surface, producing fine pictorial effect.....	50	Weirii , it is of dwarf habit, the foliage of a bright green color, thickly blotched and spotted with pale yellow. This is one of the finest of the Dieffenbachias.	50

COLUMNÆA SP.

An exceedingly pretty epiphyte which we have introduced from Guatemala; grows well on a log with or without moss; it also grows freely in a pot; flowers creamy white covered with minute red spots. 50 cents.

HOYAS.

Hoya, Carnosa , a beautiful fragrant plant.....	25	Hoya, Globulosa , "the flowers are of a bright straw color, the coronal protuberances white, the interstices of a shining brownish-pink, forming a very pleasant contrast; the trusses large and freely produced, and the leaves of a shining green color, with dark green veins."— <i>Floral Magazine</i>	50
Variegata , centre of leaf green, margined with silver.....	25		
Imperialis , a robust, vigorous growing species, with very large flowers.....	50		
*Motoskei , new.....	75		
Paxtonii , a very beautiful species, similar to <i>Bella</i> , but of freer growth.....	50		

BURBIDGEA NITIDA.

This beautiful plant is the type of an entirely new genus with the habit of *Hedychium*. It is a native of Borneo. It produces ten to thirty slender flowering stems, each bearing a panicle of 12 to 20 flowers each. The leaves are of a lively glossy green on both surfaces, and serve to set off the rich orange-scarlet colors of the flowers. Its flowers, of a rich orange hue, render it a very striking stove plant. 40 cents.

*** DRACÆNA GOLDIEANA.**

One of the most magnificent ornamental foliaged plants ever introduced, and altogether unique in character and aspect. It is a native of Western Tropical Africa. The plant is of erect habit, and the stems are closely set with stalked spreading leaves, the petioles of which are of a grayish color, terete with a narrow furrow along the upper side, the base being dilated and sheathing the stem. The base of the leaf is cordate-ovate acuminate with a yellowish-green costa, and banded with dark green and silver-gray in alternate straight or furcate bands, the colors being about equally distributed. The back of the unrolled leaves is a pale reddish-purple or wine color, and the stem where visible at the upper joints is of similar hue, the lower parts becoming green. It is, without doubt, one of the finest of all Stove plants, and indispensable in all first-class collections. \$1.50 to \$2.50.

**DRACÆNA GOLDIEANA.****CURMERIA WALLISII.**

The leaves are spreading and marked with very irregular dark green maculations, some running out from the green costa and others situated near the edge. The intermediate spaces are furnished with broadish patches of very pale yellowish-green, which in the more matured leaves becomes a greenish-gray. The colors are about equally dispersed, though the marking is very irregular, both as to the size and form of the blotches. \$1.00.

PEPEROMA PROSTRATA.

A very ornamental basket plant, with slender, creeping stems, and alternate round variegated leaves. 25 cents.

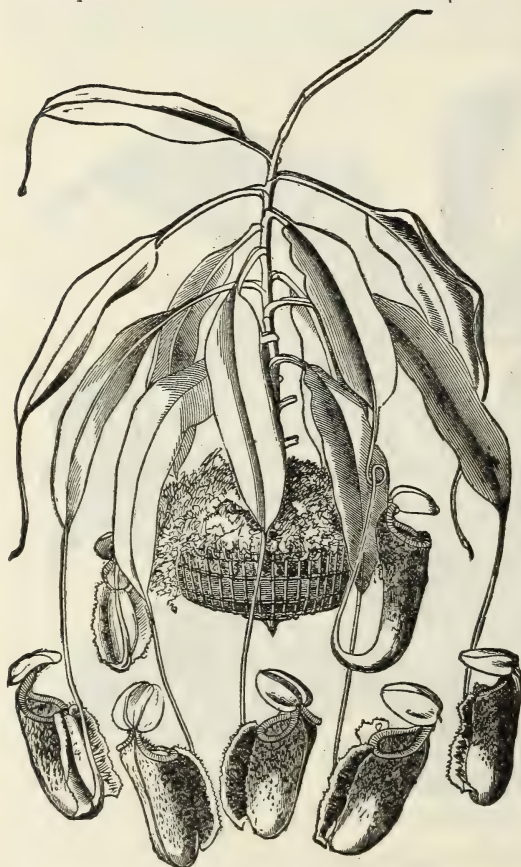

ARDISIA OLIVERI.

Ardisia Oliveri is a Stove shrub of remarkably striking appearance, with recurved foliage and large globular heads of flowers like those of an *Ixora*, but of pink color. The plant was introduced from Costa Rica by the late M. Endres. 40 cents.

NEPENTHES, PITCHER PLANT.

- Each.
- ***Nepenthes, Coccinea (Hamiltoniana)**, pitchers about 6 inches long by 3 in width, crimson, slightly speckled with yellow, flask-shaped, pointed at the base, distended below the middle, broadly cylindric above; rim broad, finely ribbed, ribs particolored, red and blackish; throat greenish, speckled with red; lid ovate oblong, smaller than the mouth, greenish, striped and speckled with red..... 2 50
- ***Dominii**, a beautiful pitcher plant, producing its large pitchers freely; color green, marbled and spotted reddish brown..... 2 50

- Each.
- ***Nepenthes, Distillatoria**, one of the oldest varieties, but one of the most distinct and valuable..... 2 50
- ***Hookerii**, a magnificent species of robust habit; the leaves are long and broad, supporting fine large pitchers upwards of 4 inches in length and 2 inches in diameter; the ground color is dark green, which is profusely streaked and blotched with dark red..... 2 50
- ***Lævis**, of very free growth, producing its pitchers freely of moderate size, of a bright green color, shaded with reddish brown..... 75 cts. to 1 50
- ***Nepenthes, Gracilis Major**, a plant of free growth and compact habit; its pitchers are produced very abundantly; the ground color is dark green, over which is a profusion of dark reddish brown spots..... 75 cts. to 1 50
- ***Hybrida Maculata**, produces its pitchers in great profusion; they are cylindric, slightly contracted above the middle, and winged; they are stained with purplish red spots of a peculiar tint, by which this variety may be recognized..... 2 50
- Mastersiana**, this is indisputably the finest hybrid *Nepenthes* yet obtained. It was raised from *N. sanguinea* and *N. distillatoria*. The pitchers are as richly colored as those of *N. sanguinea*, but easily distinguished from that grand species by their having the characteristic blotches of *N. distillatoria* on the deep claret or blood-red ground of *N. sanguinea*; they are cylindric, slightly distended below, and contracted above the middle, where there is a rib or prominence; they attain a length of 8 inches, and a breadth of 2, and even more, as the plants increase in strength. This hybrid is quite distinct from every other *Nepenthes* in cultivation; a pitcher is produced from every leaf.....
- Morganiae**, it is of dwarf, neat habit, furnished with smooth, pale green leaves with red midribs. The pitchers are flask-shaped, with two rather narrow ciliate wings; when fully grown are from 6 to 8 inches in length. On the younger plants the pitchers are beautifully mottled with bright red and pale green; in the older plants they are almost self-colored and blood red..... 2 50
- ***Phyllamphora**, of very free growth, producing in great profusion moderate sized pitchers of a bright green..... 50 cts. to 1 50
- ***Rafflesiana**, of robust growth, producing very large pitchers of great beauty, which measure from 6 to 12 inches in length; ground color dark green, mottled and blotched with red. Its handsome pitchers render it a general favorite..... \$2 50 to 5 00
- ***Sedeni**, the pitchers are produced freely even on very small plants; they are of medium size, oblong, dilated at the base, narrowed above the centre; and slightly expanded towards the top; in color they are a dark green densely covered with dark red spots, 2 50
- Stewartii**, a hybrid between *N. phyllamphora* and *N. Hookeriana*; pitchers intermediate in size between the parents, with rather broad ciliate wings in front and a prominent rib behind, deep green densely spotted and clouded with crimson..... 2 50

PITCHER PLANT.

- ***Courtii**, a hybrid pitcher plant of exceptional merit. The leaves are margined with hairs; the pitchers, which are freely produced, are flask-like, deep green in color, densely spotted or clouded with deep crimson and attain a length of from 6 to 8 inches..... \$2 50 to 5 00
- ***Patersonii**, the pitchers, which are produced abundantly, are marked with numerous reddish brown spots; a distinct and handsome variety..... 2 50

CRASSULA JASMINEA.

A very valuable and handsome plant, flowers white, resembling a *Bouvardia*, very fragrant. 25 cents.

NEW TRITOMAS (KNIPHOFIA).—Flame or Torch Flower.

	Each.		Each.
* <i>Tritoma, Caulescens</i> , this is a very distinct plant, rising on a stem with a Yucca-like head of channelled, arching leaves; the flower stem is from two to three feet high, surmounted with an enormous head of brilliant blossoms..	1 00	<i>Tritoma, McOwnei</i> , a very beautiful species with orange-scarlet flowers.....	50
* <i>Corallina</i> , a beautiful new plant, flowers very brilliant, coral red.....	1 00	<i>Saundersii</i> , a vigorous plant; the flower stem is not quite so tall, and the head is conical instead of cylindrical; the flowers are red throughout; a fine addition to the group to which it belongs, and should be included in the most select collections.....	50
* <i>John Benary</i> , new.....	1 50	<i>Quartiniana</i> , this also rises on a short stem; the leaves are channelled, arching, rigid, their points touching the ground, and of a glaucous blue color; the flower stem is stout, surmounted by a large head of yellow flowers.....	1 00
* <i>Leichtlini</i> , flowers rich orange vermillion, a very handsome and distinct <i>Tritoma</i>	1 00		
<i>Nobilis</i> , truly called "noble"; a plant of very vigorous growth, throwing up a flower stem six feet high, surmounted by a foot-long cylindrical flowerhead of bright scarlet and golden yellow,	50		

TOXICOPHLEAS.

* <i>Toxicophlæa, Spectabilis</i> , a beautiful plant with white flowers. It is extremely floriferous, even in the youngest plants; the flowers are produced in very large corymbs, each flower being of a tubular form with expanded limbs.		It is very useful for bouquets, being delightfully fragrant as well as beautifully chaste in color.	1 00
		* <i>Toxicophlæa, Thunbergii</i> , another beautiful species with large corymbs of pure white flowers, exceedingly fragrant.....	1 00

BIGNONIA MAGNIFICA.

A free growing and extremely floriferous stove plant, of scandent habit. The flowers, which are produced in large branching panicles, are of great size (about $3\frac{1}{2}$ inches across) and of exceedingly attractive color, ranging from delicate mauve to rich deep purplish-crimson, relieved by a conspicuous throat of light primrose color. 50 cents.

PHILODENDRON CARDERI.

The leaves are cordate, broadish, of a dark shaded bottle-green, with a satiny lustre, the principal ribs being marked out by bright green lines of glaucous or metallic hue; at the back the leaves are of a shaded wine purple, the course of the veins being marked by broad green lines. The glossy shaded satiny surface of the leaves impart to them a wondrous degree of beauty. 40 cents.

ASPARAGUS.—New Species.

Florists will find in these new *Asparagus*, with their delicately beautiful feathery growths, plants admirably adapted for floral work.

* <i>Asparagus, Plumosus</i> , an elegant evergreen climber with slender stems, smooth and numerous spreading branches; the white flowers are produced from the tips of the branchlets. It is an exceedingly handsome ornamental plant for the greenhouse or conservatory, and its pretty feathery growths are extremely useful for cutting for decoration. This is the finest species for florists—much more valuable than the dwarf variety.....	50	<i>Asparagus, Plumosus Nanus</i>	2 50
		<i>Tenuissima</i> , another very graceful and beautiful species, of free growth, with filmy foliage; the stems of all these <i>asparagus</i> stand without withering after being cut for a long time.....	25
		* <i>Virgatus</i> , of shrubby habit, elegant and feathery. Root-stock omitting several stems, the upper part of which branch in a corymbose manner; branches sub-erect, again twice branched; a feathery, graceful plant.....	25 to 50

ALPINIA ALBO-LINEATA.

A very striking and beautifully variegated plant, 3 to 4 feet high when fully developed. The leaves are 9 to 12 inches long, elliptic-lanceolate, pale green, marked divergently with broad bands of white and pale green. This is a grand addition to our ornamental plants, and makes a fine contrast intermixed with other foliage plants. 40 cents.

ARTOCARPUS CANONNI.

A tropical plant of exceedingly ornamental foliage of a rich bronzy-crimson tinted with purple above, beneath of a vinous red, about 1 foot long and 7 inches broad; very variable. 50 cents.

NEW PANAX.

<i>Panax, Laciniatum</i> , an elegant and very distinct plant. The leaves are tinted and indistinctly marked with pale olive-brown, and form a rather complicated mass of narrow segments; they are bipinnate, nearly as broad as long, and have a drooping contour.....	25	<i>Panax, Victorizæ</i> , a distinct and very graceful stove plant, thickly furnished with leaves of a remarkably elegant character, forming a gracefully recurving mass of pleasing variegated foliage, and is one of the most lovely and elegant variegated plants.....	50
--	----	---	----

CLIDAMIA VITTATA.

A splendid foliage plant, having large green leaves with a light band down centre of the leaf, of easy culture and rapid growth. 40 cents.

NEW CROTONS.

	Each.		Each.
Croton, Baron James de Rothschild , one of the finest of the large-leaved section, with yellow midrib, changing to a rich violet crimson.....	50	Croton, Macarthurii , the color is constant, but the markings on the different leaves are as varied as the forms assumed by the leaves themselves. The midribs are yellow, and are spotted, blotched, flaked, and barred in infinite variety.....	50
Caudatus-Tortilis , a beautiful Croton with gracefully pendulous twisted leaves. Some of the leaves are deep olive-green, with a golden-yellow central band and crimson midrib; others are almost wholly yellow which becomes suffused with crimson by age, while others again are spotted and blotched in various ways.....	50	* Montefontaineensis (new), leaves three lobed, a very rich colored and beautiful Croton.....	2 50
Chrysopsilus , the foot-stalks and midribs are pale canary-yellow, which is also spread over the blade on each side of the midrib in irregular bands, in some cases to two-thirds of the length of the entire leaf.....	50	* Newmanii (new), a richly variegated form with large lanceolate leaves freely marked with a most distinctive bright golden yellow and whitish variegation; the midrib is of a bright magenta crimson, the ground color of which is bright green, interspersed with occasional blotches of bright yellow. This magnificent and attractive variety has been imported from the antipodes.....	2 50
Challenger (Imperator), the midribs are at first creamy-white, which gradually becomes suffused with red, finally deepening to bright crimson-carmine.....	50	Nevillæ , when first expanded their midribs are bright golden-yellow, and the blades light olive-green, barred and marked with yellow. In the mature leaves, the yellow is changed to crimson, shaded with orange.....	50
Carrieri , a superb Croton, with large finely variegated foliage.....	50	President , a charming new Croton, with foliage broadly variegated with golden-yellow.....	1 00
Cronstadii , a glossy green variegated with bright golden-yellow. They are twisted, curled and crisped into a great variety of forms. The richness of its coloration renders it most distinct and interesting.....	50	Prince of Wales , the leaves are about 24 inches long. The midribs are light yellow with a broad band of the same color on either side; the remainder of the blade is light olive-green, profusely spotted and marbled with yellow.....	50
Elegantissimus , one of the most charming and elegant varieties yet offered. The leaves are narrow and of considerable length. The variegation is of a rich bright golden color, extending along the centre and occurring in distinct blotches, and this, contrasting with the bright red tint of the petioles, produces a very pretty effect.....	75	Princess of Wales (Glorious), this is one of the long-leaved drooping forms. Leaves sometimes plain and sometimes strongly undulated. The ground color is green, and the variegation creamy-yellow, very variable in character.....	50
Evansianus , the newest leaves are light olive-green, with midrib and veins of golden-yellow. As the leaves become older, the green deepens and changes to a bright bronzy-crimson, and the golden-yellow of the midrib a rich orange-scarlet.....	50	Queen Victoria , the ground color of the leaf is rich golden-yellow, beautifully mottled with green; the midrib and the primary veins are of a rich magenta color, changing with age to a vivid crimson; the margin of the leaf is banded with carmine.....	50
* Emperor Alexander (new), a very beautiful variety in the way of "Fasciatus," but more distinctly and finely marked.....	2 50	* Superbus , a rich sulphur yellow, very distinct, a fine variety.....	2 50
* Flambeau (new), leaves narrow, bright rich crimson, a brilliant variety.....	2 50	* Sunshine (new), a very handsome and distinct Croton; leaves from 9 to 12 inches long by 2 to 3 inches broad, oblong obovate; and of a dark golden yellow color, primary veins and margin same color, ground color pale olive-green spotted. This will make a good decorative plant. When the leaves are mature the markings change to a deep orange-crimson.....	2 50
Fasciatus , veins marked by bright yellow lines, interlacing near the edge, where, near the point, the surface is chiefly yellow; midrib a brownish-yellow band.....	50	Variabilis (Falcatus), its leaves marbled and blotched with different shades of yellow, orange and crimson. The leaves both in color and shape, are very variable; some are straight, others recurved.....	50
Hanburyanus , leaves rich golden-yellow and rosy-crimson that suffuse the whole plant. All the leaves are beautifully marbled and blotched with these tints on a green ground.....	50	Williamsii , this is strongly flushed with violet-crimson. The leaf has a central band, yellow, from which veins of the same color branch out on either side. These veins all change to deep crimson and the whole plant becomes flushed with a glowing tint of crimson, shaded with violet.....	50
Hawkerii , the middle and lower portions of the leaves, together with the footstalks, are light creamy-yellow which spreads over the greater part of the leaves.....	50	Extra sized plants of the above Crotons can be supplied at extra prices.	
La Dame Blanch , a very beautiful variety with long undulating foliage; the variegation is white, which marks it as distinct from other Crotons.....	50		
Lancifolius , midrib, margins and veins pale yellow, which, as the plant attains its character, becomes reticulated with bright rosy-pink; presenting a mosaic appearance.....	50		

BERTOLONIAS.

* Bertolonia, Van Houttei , has the leaves of a rich olive velvet ground color, traversed broadside by large bars of beautiful magenta red, and dotted all over with thousands of spots of the same color. The description will, however, give only a slight idea of the real beauty of this plant.....	50	* Bertolonia, Guttata , leaves dark green, profusely dotted with rose colored spots, a charming plant.....	50
		* Mirandæi , beautiful marked foliage.....	1 00
		* Pubescens , leaves light green, dark band through centre.....	50

GOODYERAS.

* Goodyera, Dawsoniana , a very beautiful plant. The leaves blackish-green on the upper side, and very glossy, with lines of beautiful golden purple traversing from the base of the apex; flowers white.....	2 00	* Goodyera, Discolor , a beautiful plant, grows about six inches high; foliage a beautiful dark velvety color, with white markings through its entire length; flowers white.....	50
--	------	---	----

LAURESTINUS.—*Viburnum Tinus*.

	Each.		Each.
* <i>Laurestinus, Splendens</i> , a variety of <i>Laurestinus</i> , with magnificent large flowers. A good grower and a free bloomer.....	50	* <i>Laurestinus, Pure White</i> , the flowers of this variety are pure white.....	50

PHYLLANTHUS ROSEA-PICTUM.

This variegation is exceedingly rich and varied, no two colored leaves showing precisely the same markings with like tints. Many of the leaves are bright crimson, which is also the color of the stem during the early stage of growth; some are a light cream color, tinged with a delicate blush, others again have a dark bronzy hue, shaded with crimson; some are dark green with blotches and spots of rose, while others are tri-colored, white with different shades of rose and green. 39 cents.

DICHORISANDRAS.

* <i>Dichorisandra, Mosaica</i> , an extremely handsome plant, of dwarf habit; leaves large, ground color of the upper side rich, deep shining green, traversed with an innumerable quantity of parallel transverse fine white lines; the upper side is of a uniform deep purple. It also produces lovely rich azure flowers.....	1 00	<i>Dichorisandra, Thyrsiflora</i> , a very fine species, flowers in a thyrses of rich azure; <i>magnificens</i> species.....	50
		<i>Undata</i> , very different from <i>D. Mosaica</i> , producing large ovate leaves, very dark green in color; the midrib and veins are of a lighter green, which gives the leaves a striped or marbled appearance.....	40

HIBISCUS CARDIOPHYLLUS.

I have the pleasure of offering this extremely beautiful *Hibiscus*, which I have received from southwestern Texas. In habit it resembles an *Abutilon*. My plants were bedded out the past summer and succeeded admirably, flowering profusely during the season. The flowers are bright scarlet, over two inches across, which makes it a very striking plant. A sterling novelty. 25 cents.

NEW FERNS.

ADIANTUMS.

* <i>Adiantum, Aneitense</i> , a very elegant free-growing species of Maiden-hair Fern, introduced from the Island of Aneiteum; firm in texture, with a glabrous surface; the roundish reniform sori are borne in the centre of the lobes.....	75	* <i>Adiantum, Farleyense, Alcorni</i> , an exceedingly distinct and handsome variety of this beautiful Fern.....	1 50
<i>Bausei</i> , a hybrid variety between <i>A. Trapeziforme</i> and <i>A. Decorum</i> , in size intermediate between the two. Its peculiarity is the drooping position of the pinnales; in the form of its pinnales it also differs from any other known Fern.....	50	* <i>Legrandii</i> , a pretty dwarf Fern, with small triangular fronds densely set with overlapping pinnales. Handsome compact habit, very distinct.....	1 00
* <i>Cuneatum Deflexum</i> , it was raised between <i>A. Cuneatum</i> and <i>A. Bausei</i> . "The plants are dense and compact in growth, on which account they are well adapted for grouping in small baskets and jardinettes.".....	50	<i>Ludemannianum</i> , a remarkable variety; the peculiarity consists in the pinnales being crested or agglomerated at the extremities of the stipes and their rachides; they are also much crisped and curled.....	1 00
* <i>Cuneatum Grandiceps</i> , it differs from the species in several striking particulars. It is more robust in habit, the fronds are more elongated, the pinnae also terminate in similar but smaller branchings, and these by their weight give the fronds an elegant arching habit.....	75	* <i>Monochlamys</i> , a distinct and beautiful new <i>Adiantum</i>	1 00
* <i>Collisii</i> , a beautiful Fern allied to the well-known <i>Adiantum tenerum</i> , but far superior to it. As distinguished from <i>A. tenerum</i> , the fronds are more numerous, somewhat taller and much more branched, giving the plant a far more elegant contour.....	75	* <i>Novæ Caledoniæ</i> , a distinct and pretty species, with pinnate fronds, the pinnales deeply cut, compact in habit and very graceful.....	1 00
* <i>Dolabriforme</i> , a beautiful evergreen <i>Adiantum</i> ; fronds elongated, pinnate proliferous, pinnales dolabriform. An exceedingly graceful Fern.....	50	* <i>Pacottii</i> , an elegant Maiden-hair Fern, 4 to 6 inches high, with elongate triangular, tripinnate fronds, with densely set pinnae and pinnales.....	50
* <i>Fragrantissima</i> , a great novelty, being fragrant; it is also a beautiful <i>Adiantum</i>	1 50	* <i>Rhodophyllum</i> , a most distinct and beautiful Fern. The fronds attain a height of 15 to 18 inches. When first developed the young pinnales are crimson, changing with age to a soft pale green.....	75
* <i>Lathomii</i> , in the way of <i>A. Ghiesbreghtii</i> , but with a drooping habit. Fronds 2 to 3 feet high, drooping somewhat. An exceedingly graceful and beautiful Fern.....	75	* <i>Victoriæ</i> , a handsome decorative Fern of dwarf densely tufted habit; sterile lobes serrate; sori oblong or reniform at the apex of the lobes.....	50
		<i>Weigandii</i> , a very pretty and novel Maiden-hair Fern, neat in habit, having the compact bunchy style of growth of <i>A. Decorum</i> . We regard this as a very distinct Fern.....	50
		* <i>Williamsii</i> , the New Golden Maiden Hair. This splendid novelty is destined to become a general favorite, and for cutting purposes its value cannot be overestimated. It succeeds well in a greenhouse temperature. It is in every respect quite as free and hardy as <i>A. Cuneatum</i>	1 00

Asplenium Nobilis, this is a graceful Fern, with light lace-like pinnae and arched fronds which somewhat resemble those of *A. Viviparum* or *A. Lineatum*.....

**Davallia Tenuifolia Stricta*, an exceedingly handsome Fern, with spreading plume-like, broadly ovate fronds..... 75
**Pteris Bausei*..... 1 00

	Each.		Each.
<i>Lastrea Richardsii</i> Multifida, the plant has fronds 3 feet high. Its bright green color and the broad-crested apices with their numerous narrow divisions give this plant a singularly elegant character.....	25 cts. to 50	<i>*Gymnogramma Schizophyllum</i> , a very beautiful and distinct Fern. The frond is about 2 inches broad, very finely cut. A remarkable peculiarity in this <i>Gymnogramma</i> is seen in the furcation of the rachis and where it is proliferous, every frond producing a young plant. One of the most attractive of Ferns.....	25 cts. to 50
<i>*Nephrolepis Rufescens</i> Tripinnatifida, this is unquestionably the handsomest and most effective of all the forms of the widely distributed <i>Nephrolepis Rufescens</i> yet discovered; it is a native of the Fiji Islands. The fronds are tufted, erect or sub-erect, 2 to 3 feet high; the stipes and rachides are of a glossy red-brown color and clothed with a ferruginous tomentum. The pinnae are much cut and divided into segments in endless variety as to length and form. The aspect of the plant is light and graceful in the extreme.....	2 50	<i>*Pleopeltis Fossa</i> , its pretty arching habit of growth and comparatively small size make it a very suitable object for suspending from the roof of the Stove Fernery, and its durable leathery evergreen fronds give it a peculiar distinctness of character.....	75
<i>Nephrolepis Duffii</i> , a beautiful and distinct Fern. The fronds are densely crowded, from 15 to 18 inches long, pinnate and much crested. The pinnae are produced in pairs one overlying the other, those above being largest. Compact elegant habit.....	30 cts. to 50	<i>*Platynerium Alicorne</i> (Elk's Horn Fern), a very handsome and distinct evergreen Fern succeeds well on block or basket.....	2 50
		<i>*Majus</i> , large and very beautiful variety.....	2 50
		<i>Biforme</i>	2 50
		<i>Hilli</i>	3 50
		<i>Willinckii</i>	2 50
		<i>Ethiopica</i>	2 50
		Platyneriums are among the most distinct of Ferns, succeeding admirably on blocks.	

GLEICHENIAS.

<i>*Gleichenia, Dicarpa</i> , the color of the younger and fresher-looking fronds is a dark green, with a kind of metallic or bluish tint, and the under side is glaucous.....	2 50	<i>*Gleichenia, Flabellata</i> , a distinct and fine species, makes a strikingly beautiful plant.....	2 50
<i>*Rupestris Glaucescens</i> , a very distinct form of <i>G. Rupestris</i> . The fronds are of a much thicker texture and very glaucous on the surface, changing with age to a bright glaucous green. A very effective variety.....	2 00	<i>*Dichotoma</i> , a very handsome species, makes a nice specimen plant.....	2 50
<i>*Semivestita</i> , a very pretty compact free growing species, makes a handsome specimen plant.....	2 00	<i>*Mendellii</i> , this is one of the most distinct and free-growing kinds. It is a very compact growing species, requiring cool treatment. The pinnae are of a thick texture, and very glaucous on the under side.....	
		<i>*Speluncæ</i> , a distinct and beautiful species, makes a charming specimen plant.....	

ARALIAS.

<i>*Aralia, Amboinense</i> (Sciadophyllum pulchrum), a very ornamental plant with large, bright green shining foliage. A grand decorative plant.....	1 50	<i>Aralia, Guylfoylei</i> , the leaves are made up from three to seven-stalked oblong-elliptic bluntish leaflets. These leaflets vary in size from two to three inches long, and evenly margined with creamy white.....	25 cts. to 40
<i>*Elegantissima</i> , a beautiful plant with straight erect stem, furnished at short intervals with digitate leaves, mottled with white on a dark green ground; the leaflets, from seven to ten in number, and gracefully pendulous. The color of the foliage is a deep green shaded with brown.....	1 00	<i>*Reginæ</i> , as the name implies, it is truly the Queen of Aralias. It is of a larger habit of growth than the Veitchii section; the leaf branches are more closely set, and the habit of growth is very graceful; the stem and petioles are beautifully freckled.....	1 50
<i>Filicifolia</i> , a plant of the first rank, graceful in habit, and well furnished with foliage, altogether one of the most valuable decorative plants. The stem and leaf stocks are purplish, marked with oblong white spots.....	30	<i>Sieboldtii</i>	25 cts. to 50
<i>Reticulata</i> , a very distinct species of free growth; a fine decorative plant.....	50	<i>*Veitchii</i> , a very elegant plant from the South Sea Islands, producing very narrow digitate leaves, considerably undulated; upper surface deep green; under, dark crimson. One of the most beautiful decorative plants in cultivation.....	1 00

PHYGELIUS CAPENSIS.

This pretty *Penstemon*-like plant I have found quite hardy, it having passed several winters out doors without protection. It grows from 3 to 4 feet high, and has numerous semi-herbaceous stems, each terminated by a long branching raceme of flowers, which are brilliant scarlet. It is a most persistent flowerer, beginning in May or June and continuing up to frost. This is one of the most ornamental hardy plants in cultivation.—*Garden*. 30 cents.

SALVIA.

<i>Salvia, Greggii</i> , a pretty new species which I have introduced from Texas. This has long spikes of brilliant cherry; a continuous bloomer, very compact habit, and nearly or quite hardy in this latitude.....	25	<i>Salvia, Microphylla</i> (new), small leaved, very much in the style of <i>Greggii</i> , with very small foliage, and brilliant cherry colored flowers....	50
---	----	--	----

ANASACANTHUS WRIGHTII.—New.

A new plant which I have received from south-western Texas. This shrub attains a height of four to five feet, bushy, flowers orange, a continuous bloomer, nearly or quite hardy. 30 cents.

SONERILA HENDERSONII.

A charmingly variegated plant, of dwarf habit. Its leaves are most elegantly studded over with silvery-white pearl, or tiger-like spots upon a rich dark olive-green ground. Flowers rosy-lilac. This beautiful plant proves far easier in its management than any of the former species of *Sonerila*. We have found this plant a profuse bloomer during the winter. 30 cents.

PHYLLOTÆNIUM LINDENI.

A fine Aroid discovered by Mr. G. Wallis, in New Grenada, and sent by him to M. Linden, of Ghent. The plant has robust foliage, which is very persistent; the leaves are of a light glossy green, marked by bands of white, which cross the blade in almost parallel lines from a prominent midrib of the same color. \$1.00.

SENECIO PULCHER.—Beautiful Groundsel.

A half hardy perennial, a pretty plant, with rosy-crimson flowers, very showy, flowers late in summer. Figured in American Agriculturist. 30 cents.

		Reine des Roses, spikes of beautiful rose color,	25

VERONICAS.—Herbaceous.

Veronica, Hendersonii, a new species introduced from Japan, growth about 2 feet high, robust habit, foliage broad, of a deep rich green, dense and abundantly produced. The flowers are very large, rich deep violet blue, produced in large cluster heads composed of many spikes;		the finest of the herbaceous section of Veronicas	50
		Veronica, Elegans Variegata, a very beautiful hardy herbaceous plant, with elegantly variegated foliage, long spikes of blue flowers.....	25

TECOMA STANS.

A very fine plant, from southwestern Texas, has succeeded finely bedded out with us during summer. The flowers are a rich yellow, and very floriferous. A superb plant for the South. 50 cents.

APHELANDRA FASCINATOR.

A very fine species, with very ornamental foliage as well as magnificent flowers; the leaves are rich dark green, beautifully banded with silvery white, and underneath of a uniform purplish velvet; the spikes of bloom are very large and of a dazzling vermilion color. 40 cents.

CANNAS, (New).

Canna, Ehemanni, the most distinct of all Cannas on account of the large oval Musa-Ensete-like soft green leaves, which place it foremost among decorative foliage plants. Its most striking feature is the splendid carmine-red flowers produced on flower stems of great length, that unfold about 12 flowers to each of the smaller branches.....	30	Canna, Nouttoni, this very distinct and fine Canna is closely allied to the last. Like it the foliage is large and fine. The flowers are also very large and showy, of a bright scarlet; a grand Canna.....	30
Gladioliflora, flowers deep amber or orange colored, which are very large; foliage a deep blue-green, very distinct.....	30	Adolph Weick, very dwarf compact habit, flowers of a rich crimson-scarlet, shaded with orange, foliage rich pea-green. One of the dwarfest and most free flowering in cultivation.....	30

CAMPYLOBOTRYS GHIESBRIGHTI VARIEGATA.

A pretty variegated variety of this beautiful plant. 25 cents.

POSOQUERIA LONGIFOLIA.

This plant forms an elegant bush, and is very free flowering. Leaves large, somewhat ovate, coriaceous, and shining green; flowers tubular, pure white, produced in large corymbs of a dozen and more, waxy-like, from 3 to 4 inches long, and deliciously fragrant. 50 cents.

ERIOCNEMA MARMOREUM.

Plant dwarf, with habit of some of the Begonias, leaves green, striped with bands of white: a beautiful plant. 50 cents.

*CYANOPHYLLUMS.

Demorest's Illustrated Monthly.

THE MODEL PARLOR MAGAZINE OF THE WORLD, COMBINING
THE ESSENTIALS OF ALL OTHERS.

The increasing popularity of **DEMOREST'S MONTHLY MAGAZINE**, a popularity extending over twenty-five years, is ample proof that each succeeding year finds it improved in its vitality, beauty and attractiveness; thus meriting the enthusiastic encomiums bestowed upon it by its wide circle of intelligent and critical readers.

The peculiar features of this Magazine render it absolutely indispensable in the family circle. Its mission is to refine, elevate and instruct. Not only does it show how home can be beautified and adorned, but it points out the way by which the qualities of head and heart can be so cultivated that they will shed around the beneficent light of intellectual and moral beauty. Thus it is a safe family guide, a counsellor and friend for the young, while those older can find profit and pleasure in its pages.

So varied and instructive are its departments, combining as they do, **Literature, Art, Architecture, Poetry, Floriculture, House and Home Matters, Work Table, Fashions, Editorials on Topics of the Day, Science at Home, Kitchen, Ladies' Club, Review of New Books, Common Topics**, that it forms a valuable compendium of desirable and useful information for everybody.

Its **Literary Department** is richly stored with **SERIALS, SHORTER TALES, BIOGRAPHICAL and HISTORICAL SKETCHES, ESSAYS, EDITORIALS, POEMS, and MISCELLANEOUS ARTICLES**, from the pens of the best writers of Europe and America; thus furnishing the most choice and popular literature of the day.

Its **Artistic Department** possesses unusual interest. Each number is profusely illustrated with a beautiful **ART PICTURE IN OIL**, of rare delicacy of finish, or well executed **STEEL** and other **ENGRAVINGS** of celebrated pictures, by world-renowned artists of ancient and modern times, and **FASHION ILLUSTRATIONS**, which for beauty, variety and reliability are not equalled by those of any magazine in the world.

Its **Scientific, Architectural, Floricultural, Household and Fashion Departments** are equally full and attractive; the whole forming a Magazine which most admirably combines the useful and ornamental, the instructive and entertaining, and which for beauty, utility, originality and cheapness, is without a peer in the field that it occupies.

Each copy of **DEMOREST'S MONTHLY MAGAZINE** contains a **COUPON ORDER** entitling the holder to the selection of **ANY PATTERN** illustrated in any number of the Magazine, and **IN ANY OF THE SIZES** manufactured, making during the year **Twelve Patterns**, valued at from 20 cents to 30 cents each.

This is a most liberal offer; and ladies are learning that, besides having the best **Literary and Household Magazine** that is published, they can save between \$3.00 and \$4.00 per year by subscribing for **DEMOREST'S MONTHLY**, which is acknowledged to be the best Family Magazine in the world. Many suppose **DEMOREST'S MONTHLY** to be a Fashion Magazine. This is a great mistake. It undoubtedly contains the finest **FASHION DEPARTMENT** of any Magazine published, but this is the case from the fact that great enterprise and experience are shown, so that each department is equal to a Magazine in itself. By subscribing for **DEMOREST'S** you really get a dozen Magazines in one, and secure amusement and instruction for the whole family.

Yearly Subscription \$2.00.

Single Copies (containing Pattern Coupon) 20 Cents.

W. JENNINGS DEMOREST, Publisher, 15 East 14th Street, N. Y.

For reliable information on all that pertains to fine gardening, I can heartily recommend to my customers **THE AMERICAN GARDEN** of New York, the publisher's prospectus for which is given below. I will receive and forward subscriptions for my patrons.—JOHN SAUL.

There are no Secrets of Success in Gardening and Fruit Culture

known to its writers, who are successful gardeners, florists, fruit growers, landscape gardeners, specialists and amateurs, which will not be told in this illustrated monthly magazine of the garden, orchard, house, lawn, farm and nature.

GREATLY IMPROVED IN EVERY WAY.

1872. **THE AMERICAN GARDEN.** 1888.

IN ORNAMENTAL GARDENING we will show how to make use of the simple means of Nature, as well as teach the more elaborate phases of Landscape Gardening.

ORCHIDS will have a special department, illustrated, written by E. S. Rand, Jr., of Brazil, W. A. Manda, Director of Harvard College Botanic Gardens, and others.

THE ROSE Department, illustrated, treats of Rose culture under glass and in open ground, for both amateurs and professional gardeners.

NEW OR RARE PLANTS will be described by W. A. Manda, of Harvard Botanic Gardens, William Falconer, and other noted specialists.

THE IRIS, THE LILY, JAPAN MAPLES, PELARGONIUM, and CARNATION, will be written of in special exhaustive articles by able specialists, with beautiful illustrations.

PROPAGATION will receive special attention by skilled cultivators, and include all classes of plants.

FRUIT CULTURE will have the work of practical growers and experimenters in all sections. Varieties, Diseases, Culture, Marketing, etc., will be written by Dr. T. H. Hoskins, T. V. Munson, Prof. J. L. Budd, Charles A. Green, E. Williams, L. H. Bailey, Col. F. D. Curtis, A. A. Crozier, D. B. Wier, and many others.

VEGETABLES. An exhaustive series by E. S. Goff, of N. Y. Experiment Station, will describe the cultivated varieties, weeding out duplicates and worthless sorts without fear or favor. Vegetable gardening will have extensive and practical treatment.

WINDOW GARDENING, which so often tries the hearts and nerves of persistent flower lovers, will have as much light thrown upon its mysteries as successful amateurs can shed from their experience.

CHARLES BARNARD, Supt. Chautauqua Town and Country Club, will describe his work in the culture of a village lot, of special value to professional men, mechanics and beginners.

THE HOUSE GARDEN deals with plant and floral decoration of house and table, floral fashions, proper use of orchard and garden products in canning, cookery, preserving, etc., etc., by "Shirley Dare," author of *Anna Maria's Housekeeping*.

GREENHOUSE construction and management will be discussed at length.

SCHOOL GARDENING will have continued careful attention.

PRICE ONLY \$1.00 PER YEAR; SINGLE COPIES, 10 CENTS.
